REHABILITATION DEPTT.

"D Bn"

This Govt. took over the relief camps for displaced persons from the Govt. of India with effect from the 14th June 1948. A special Deptt. viz. the Relief and Rehabilitation Deptt.(designation later changed to Rehabilitation Deptt.) was created with effect from the 9th June 1948 to deal with the problem of relief and rehabilitation in this Province. In view of the magnitude of the problem involved however, apart from the creation of the administrativ Deptt., it was decided soon thereafter to set up an independent executive organisation directly under Govt. The Directorate of Relief and Rehabilitation (designation later changed to Directorate of Rehabilitation) under the control of Major-General J.K. Bhonsle, formerly of the INA I.N.A. came into existenc All Collrs. in the districts have been declared as Rehabilitation Officers and they deal with the problem so far as their respective districts are concerned. A number of relief camps hav e been opene in this Province. Although all these Camps are under the overall control of the Dir.s immediate control over them has been vested in the Collr. of the Dist. in which the camps is situated. As an exception, however, the camps in Greater Bombay and Thana Dist. are directly under the control of the Dir. of Rehabilitation himself. A list of all camps together with details regarding the pupulation, etc. is appended.

Besides the foregoing organisation, Govt. established in Febry. 1949 a special section for dealing with the problem of relief and rehabilitation of destitute women and children. This is known as

"The.....

"The Women's Section" and is under the control of an Executive Committee consisting of ten non-official ladies with Mrs. Mithan Lam as the Chairman of the Committee. It has been recognized by Govt. that the problem of relief and rehabilitation of destitute ladies and children has its own special features and it was therefore decided to set up a Women's Section. This section also is under the overall control of the Dir. of Rehabilitation.

A chart showing the structure of the whole organisation as also a statement indicatiing the subordinate officers, non-gazetted staff, etc. under the various officers is appended. The problem of medical and sanitary arrangements in all relief camps is entrusted to the Chief Medical Officer who is under the control of the Surgeon Genl. and in turn the Health and Local Govt. Deptt.

2. The relief camps were taken over in June 1948 and the initials stage of the problem was mainly confined to the provision of relief, i.e. shelter, food, clothing, medical relief, etc. The position has since altered considerably and the emphasis is now more on rehabilitation. It has been decided that free feeding of displaced persons should be stopped altogether with effect from the 17th Octr. 1949 except in the case of utterly destitute, aged and infirm displaced persons. A policy of gradual liquidation of relief camps have been undertaken and the distribution of free rations has already been stopped in some of the camps. It is anticipated that most, if not all the relief camps in the form in which they exist at present will be liquidated by the end of Octr.1949, and they will there after be ordinary

residential....

residential colonies where displaced persons will be allowed to stay on payment of rent pending the final creation of new townships or colonies.

Other measures adopted for rehabilitation including the grant of loans to displaced persons for agricultural or business purposes are schemes of industrial and vocational training, the opening of production centres, the setting up of agricultural colonies for displaced persons, etc. A vocational and industrial training centre has been opened in the Kalyan Camp and is working for almost a year now. The question of opening industrial and vocational training centres in other camps is under active consideration. Govt. has recently sanctioned a scheme of organising production centres for displaced persons and such production centres are being opened at Pimpri, Valivde, Madh Island, and Kalyan Camps. A scheme for encouragment of co-operative enterprises has also been sanctioned and it is under the control of the Regr. of Co-operative Societies. A list of the schemes so far sanctioned and the officers in charge of the schemes is attached.
